

## Instant Dry Matt Canvas

### OV3MC15 (330gsm)

ILFORD Omnijet Instant Dry Matt Canvas is a 490micron (15mil) cotton/ polyester 40/60%) canvas textile coated with a matt instant dry imaging layer. Designed for use with aqueous dye or pigment based inks.

This canvas is especially designed for decorative and banner type applications. It is ideal for producing indoor fine art digital prints.

#### PRODUCT INFORMATION FEATURES

- Durable and flexible cotton/polyester canvas textile.
- Instant dry coating.
- Ideal for digital prints requiring framing.

#### PRINTER COMPATIBILITY

Omnijet Instant Dry Matt Canvas is designed for use with most wide format inkjet printing systems using aqueous dye or pigment inks from the major printer manufacturers.

For maximum water and light fastness the use of pigmented inks is recommended.

**IMPORTANT** Printer and driver settings may need careful setup to ensure optimum performance. Ink load settings need to be set appropriately for the ink/ printer combination in use.

#### AVAILABILITY

Finished rolls Most standard widths from 24" (61cm) to 50" (127cm)

#### PHYSICAL PROPERTIES

Total Weight	330gsm
Opacity	>90%
Caliper	490micron (19.5mil)
Whiteness	102
Gloss (60°)	2.1%
Environmental Use	15°C–25°C (60°F–75°F), 30–70% RH non-condensing
Storage Conditions (boxed)	10°C–50°C (50°F–120°F), 10–80% RH non-condensing

#### When using dye-based inks:

All unprotected "instant dry" nanoporous media may suffer from "gas fading" to some degree when used with dye based inks, depending on the display environment. To extend print life, they should be displayed under glass, laminated or otherwise protected or printed with pigmented inks.
